A much larger amount of railing has been ordered and put up the past year than is usual. The whole amount of the appropriation therefor has been expended and much more railing is needed, besides more or less repairing needed to that already existing. The appropriation for railings being in the hands of the Selectmen, reference to their report is directed.

INSURANCE.

I would recommend insurance on the steam roller which can be effected for \$5,000 for three years, against loss of life or personal injury resulting from explosion, collapse or rupture of boiler and includes free inspection of the boiler by the inspector of the company insuring.
